MONEY LENT.
WE STILL SEEK WITCHES.
SUGAR, YEAST WHISKY.

By Arthur Brisbane
(Copyright 1929, By King Features

THE New York Chase National bank is to be congratulated on making a loan of \$500,000 to the Cuban government. Our nation lent billion to European nations, using the money to kill each other. It is fortunate that we have private bankers sufficiently intelligent and progressive to help finance a near neighbor and good friends, that will use the money constructively. It is a good loan. Cuba is an immensely rich country, and her people are honorable.

Mexico imitates Britain, raiding private offices of the Russian government in Mexico City, seizing papers, etc. As in the case of British raiding, Russia protests violently against the "unacceptable violation of diplomatic rights."

At present Russia's protest is not important. But later flying machine development might make it important. Russia could resent such incidents by sending raiding parties through the air, striking at great population centers of other nations. Retaliation by the other nations would be difficult. Russia is made up chiefly of 200,000 villages. Bombing 10,000 of them would produce no decisive effect.

Moscow and Leningrad amount to little as cities, and attacking them would not mean much to Russia. But if you destroyed New York, you would convince some boyish banker that their foolish loans to the czar were not as important as they thought.

Moderns smile, reading of the Great Alexander traveling over desert wastes to consult a soothsayer, and never suspecting that the lady had been told in advance, what the conqueror wanted her to say. But desire to consult the future, through any kind of witch, from Endor to Los Angeles, a craving for the impossible still exists among us.

Mrs. Mary Stewart, who lives in Los Angeles, says she gave Mrs. Blackburn \$25,000 to buy her way out of the work of the "great evil."

And Clifford Dabney gave \$45,000 to the same worthy cause. Mrs. Blackburn you must know has in her possession the "sixth seal." When that is broken, everything will be revealed. Who would not pay \$45,000 or \$45,000,000 to know everything assuming that he would know what it was all about when he heard it.

Jean, the astronomer, says if the universe could be explained to us, accurately, it would be more incomprehensible to us than it is now, as though you explained differential calculus to a hoptoad.

Mr. Dabney, surely got his \$45,000 worth. It is testified that, thanks to Mrs. Blackburn, he saw wonderful visions. He saw two disciples and some angels on the same street. The witness did not say whether it was Broadway New York or Broadway, Los Angeles, but it was probably the latter. Two many speakies near Broadway, New York.

The federal grand jury at Springfield, Ill., accuses two great corporations of conspiring with bootleggers to break the law. Bootlegging whisky calls for sugar and sugar, one of the two corporations makes sugar, the other makes yeast—that is their business, and it is legal. They sell it to anyone that will buy. The law does not say that it is their business to make sure that the yeast or sugar will not be used to make alcohol.

This emphasizes the difficulty of prohibition enforcement. The laws of chemistry and of nature work to produce alcohol, even manufacture it inside the body of the loyal prohibitionist, after he has swallowed his sugar in an innocent, non-alcoholic form.

If, however, the corporations have knowingly supplied bootleggers, and willfully connived at the breaking of the law, prohibition enforcement may reach them, and should do so.

Fire Loss Heavy

MT. VERNON, O., Feb. 12.—Damage of \$48,000 was done by two fires in the business section here, it was estimated today. The blaze destroyed the R. L. Shaw funeral home, causing a loss of \$48,000 and damaged the home of Mrs. Tydings to the extent of \$5,000 yesterday.

WETS LAUNCH ATTACK IN WASHINGTON

Statewide School Survey Ordered By Director

CENTRALIZATION OF SCHOOLS IN PERIL, HE SAYS

Bus Tragedies Have Given Opponents to Measure Leverage, Claim

WARNS BOARDS OF RESPONSIBILITIES

Crossings, Busses, Men, Habits To Come In Inspection

COLUMBUS, O., Feb. 12.—With the centralized rural schools at stake, rural school officials throughout Ohio today were in receipt of a plea from John L. Clifton, state director of education for co-operation in making a thorough, statewide survey of the school bus situation.

"I feel sure that you appreciate, as I do, the serious situation that confronts us in this matter," Clifton declared. "We have had a hard fight to centralize the rural schools to their present status, and the matter of transportation has been one of the high points of the opposition. Already the loss of centralization is pointing to various features of the school bus situation as justification of their opposition. The challenge is squarely up to you and me to clarify the situation or to accept the criticism."

"I believe that boards of education that have been careless, or delinquent, in any particular will be quick to bring their transportation facilities up to standard when they have a standard to work toward. With this thought in mind, I am submitting this general survey. My sincere desire is to co-operate with local boards in perfecting school bus operations."

In conducting this survey, Clifton has arranged for the collection of data detailing the nature and condition of school bus equipment, physical qualifications of the drivers and enumerating important facts in connection with the routes traversed by these buses.

Condition of the crossings, nature of protection afforded, and the personal habits of the drivers—smoking, drinking, etc.—are included in the data to be collected during this survey.

BLAZE IN HOME FATAL TO THREE

Mother and Two Children Fire Victims; Others Are Injured

CLINTWOOD, Va., Feb. 12.—A mother and two children were burned to death and six other members of the family were severely injured early today when fire destroyed the home of Mrs. Jack Robinson.

Mrs. Harmon Mullins, the mother, and Anna Lee and Vernie, two children, were the victims. Five other children were seriously burned before they could escape from the flaming structure.

Mullins, the father, who also was badly burned, saved the lives of five-year-old twins when he rolled them in a feather bed and tossed them from the window.

The origin of the blaze was not determined.

Police Heed Call, Find Small Child

CHICAGO, Feb. 12.—A squad of police rushed to an address here today upon receipt of a hurried telephone call that a bomb had been placed on the front porch of the home of Mrs. Anna Reiter.

Cautiously the detectives approached a mysterious package, investigated and found—a blond, blue-eyed infant about 15 days old that apparently had been deserted by a needy mother.

CLEANING DAY AT CITY HALL; FIREMEN BUSY

Annual Renovation Comes With Bit of Spring Hovering In Air

Spring may not be here just yet but according to the seasonal hustle and bustle of Salem firemen and patrolmen it is certainly on its way. For today the annual cleanup of the entire city building was in progress with all members of the police and fire forces participating in general work at headquarters.

Police Chief T. W. Thompson was busy giving the city jail a thorough cleaning with hose and mop, preparing for the annual influx of transients into the city.

Night lodgers have been plentiful during the past winter months but a greater number is expected during the few weeks remaining between now and regular spring weather.

Disinfectant, "bug-killer" and water was used by the police chief in all corners of the "iron hotel." A coat of whitewash will probably be put on next and the job will undoubtedly be delegated to some less fortunate criminal lacking funds with which to pay a fine or costs imposed by Mayor John M. Davidson.

With Lieut. William O. "Billy" McIlvain manipulating the water hose and Thomas "Tom" Hagan handling the broom, the firemen were going through the process of cleaning the brick floor inside fire headquarters and the walk and street in front of the building.

Other members of the fire force were busy in various parts of the city hall.

Fire apparatus was thoroughly overhauled and the entire city safety department was making complete preparations for duties during the spring and summer months.

To Honor Lincoln In Meeting Here

Philip Triem camp No. 43, Sons of Union Veterans, will celebrate Lincoln's birthday anniversary at its meeting Friday evening at the hall, East State and have as guests members of Trecoast post No. 10, G. A. R.

J. L. Gray will give the address and Charles Bonnell, Civil war veteran, will give Edward Markham's poem, a tribute to Lincoln. G. H. Mounts will give Lincoln's Gettysburg address.

The Sons of Veterans' quartet will sing and other musical numbers will include saxophone solos by Harry Lettman and harmonica selections by G. H. Mounts.

The verses will appear soon in a new volume of Lincoln to be published late in March, compiled by Paul M. Angle, secretary of the Abraham Lincoln association, Springfield.

On the afternoon of September 28 Lincoln spoke at a large barbecue held at Winchester, county seat of Scott county.

During his stay in Winchester, Lincoln stopped at the town hotel, the Haggard House. In the proprietor's family were two daughters. At their request Lincoln wrote the following verses in their auto-graph books:

JOBLESS BATTLE WITH POLICE IN CLEVELAND RIOT

Officer Badly Injured In Disorders In Heart of Ohio City

FIREMEN CALLED TO HELP AUTHORITIES

Threat of Cold Bath Is Too Much for Reds Staging Fight

CLEVELAND, Feb. 12.—Nine men, including one 19-year-old youth, were under arrest here today as the ringleaders of the legion of 1,500 unemployed rioting communists who battled 20 police in a wild melee of flashing knives, guns, nightclubs and flying fists on the steps of city hall yesterday while attempting to storm the council chambers to demand work.

Three policemen were injured, one seriously, in the riot which paralleled the recent Communist riot in New York and Milwaukee. Several scores of the rioters suffered bruises from kicks and blows received during the wild demonstration.

Police Lieutenant Oliver Torrence was reported in a serious condition today. He was severely pummeled and given a terrific beating by the maddened rioters. Hospital authorities reported he may have been injured internally.

Two Face Charges
Two of the nine men under arrest are charged with assault and battery on Lieut. Torrence. They are Tom Rider, 40, and Basil Liggins, 32.

The battalion of jobless marched on to city hall late yesterday after they had been recruited by fiery orators in public square. A meeting of the city council committee on public welfare with representatives of the council of unemployed was under way at the time.

Nearly 500 of the legion were admitted to the floor of the council (Continued on Page 3)

Salem - Warren Bus Line To Start

The motor coach line between Salem and Warren, recently authorized by the Ohio public utilities commission, will start service Saturday, E. S. Donaldson of Alliance, owner and operator of the line, announced here today.

The new service will be known as the Warren-Salem Transit company and will be the third operated by E. S. and W. F. Donaldson, both of Alliance. They also operate a bus line between Warren and Orwell and Alliance and Minerva.

Three round trips will be made daily. Headquarters will be maintained at the Stark Electric depot here and the Penn-Ohio bus terminal in Warren.

The trip between this city and Warren will be made via Ellsworth, North Jackson and Lordstown. Connections are made out of Warren for Cleveland, Newton Falls, Orwell, Ashabula, Sharon and Mercer, Pa. Buses will leave Salem at 8:45 a. m., 12:45 and 4:45 p. m. The run is made in one hour.

HOSPITAL FIRE BRINGS DANGER

Blaze In Laundry Threatens Big Chicago Institution With Destruction Today

CHICAGO, Feb. 12.—Lives of hundreds of patients were endangered here today when fire broke out in the laundry building of Michael Reese hospital, one of the largest in the city.

When firemen first arrived flames were shooting 100 feet into the air and dense clouds of smoke filtered through the hospital building. Two special alarms brought additional firemen and apparatus which sprayed the burning building to prevent the flames spreading to the nurses' home and the hospital, separated from the laundry by a narrow alleyway.

Nurses and internes moved patients to the side of the building away from the fire. The cause of the blaze, which totally destroyed the laundry, a 2-story structure, is unknown.

COLUMBIANA PEOPLE SPENT \$4,000,000 FOR AUTOMOBILES IN 1929

April Leads Year In Number of Sales Recorded By County Official; New Record For All Time Established In Year

LISBON, Feb. 12.—Records announced today by Clerk of Courts John A. Noble disclose that in 1929 3,950 new pleasure or passenger motor vehicles were sold in Columbiana county and 362 new trucks, a total of 4,312 new motor vehicles.

On top of this record there was 18,095 bills of sale recorded during 1929 at a cost of 25 cents each. The receipts from this alone totaled \$4,523.75.

At an average cost of \$1,000 for each motor vehicle, together with accessories, tax and delivery charges, it has been estimated by Clerk Noble that the purchasers of these motor vehicles spent \$4,312,000 for pleasure cars and trucks. This sale of new cars as revealed by the 1929 report is a new high record for Columbiana county.

OFFICIALS GET BLAME FOR ALL RACKETEERING

Crime Could Be Stamped Out If Leaders Of Police Act

PALM BEACH, FLA., Feb. 12.—Racketeering, which has reared its menacing head in leading American cities, can be stamped out, according to John F. Hylan, former mayor of New York City, "if governing officials in all branches perform their full duty and administer the law without fear or favor."

Judge Hylan made this assertion in an exclusive interview today. He discussed racketeering and its ramifications with authority, for many years he was a city magistrate and a county judge for four years.

"The police have the cooperation of the judges and the administrators of the criminal law in any state or city, racketeering cannot exist," said Judge Hylan.

"Racketeering is comparatively new in American life. It has its roots in politics and it has been given impetus by prohibition which has bred a disregard for law in certain quarters."

"When racketeering flourishes in any city it is a sure sign that the police commissioner, or head of the police department, is more in sympathy with the underworld interests than with those who want the city run decently."

The trouble with police departments in many of our big cities is that men are placed in charge who are not mentored to administer that department because of their inexperience than a bootblack is fitted to run a barber shop."

Judge Hylan said he has seen racketeering grow from a small sinister business to its present powerful proportions. He took a shot at judges who fail to do their duty in dealing with racketeers and their ilk when they are brought before the bar of justice. He scored the machination of politics that shield and protect the racketeer.

County Boy Scout Head Speaks Here

Charles E. Felton, Lisbon, Columbiana county Boy Scout executive, was the speaker at the noon luncheon meeting of the Rotary club Tuesday.

Felton cautioned members of the club that acts of men have great effects on boys and stated that all men should take steps to set higher examples for the boys to follow.

The speaker was presented by Russell C. Gibbs, Sheriff Buta, trumpet player and Calvin Conway, pianist, entertained the club with duet selections. They were presented by George W. Bunn.

Wilbur J. Springer, vice president was elected president to succeed Robert Anderson who has left the city. George W. Bunn was appointed to succeed Springer as vice president. Their terms expire July 1.

Cold Wave Moving Towards Chicago

CHICAGO, Feb. 12.—A cold wave with temperatures of 10 to 20 degrees below zero was reported in Canada today and moving slowly toward the lower Great Lakes region and the middle west.

The unusually mild weather in Chicago the past two days will end tonight when the temperature is scheduled to drop below freezing, according to Forecaster C. A. Donnell.

Mrs. Edward M. Leggett, relative of the bride of this city and Patrolman Ralph Steffen, member of the city police force, attended the ceremony in capacity of witness.

GIGANTIC VESSEL WILL REMAIN IN BRITAIN'S FLEET

House of Commons Hears Refusal of Request Made by Borah

DELEGATES STUDY TONNAGE FIGURES

First Lord of Admiralty Issues Statements To Group Today

LONDON, Feb. 12.—Great Britain has no intention of scrapping H. M. S. Rodney, pride of the British fleet and most powerful warship on the seas. First Lord of the Admiralty, A. V. Alexander, told the house of commons today.

Alexander's statement was made in answer to a question from a member of the house, who referred to the demand of United States Senator William E. Borah of Idaho, that the Rodney be scrapped in order to bring about parity in capital ships between Britain and America.

That whatever Borah's suggestion caused a considerable flurry in this country was evidenced by the parliamentary question, which was introduced at "question time" in the house soon after the body met this afternoon.

Alexander added that neither would Britain consent to scrap the Nelson, another new battleship of the Rodney type. He made no elaboration on his answer, merely stating flatly that destruction of these two gigantic super-dreadnaughts had no place whatever on the British disarmament program.

THREE FIREMEN HURT AT BLAZE

Attempt To Rescue Aged Man Cause; All Will Survive Injuries

CLEVELAND, Fe. 12.—Three firemen were seriously burned here today when they defied flames sweeping a house to rescue an aged man who was trapped on the second floor.

The injured fire fighters are: Lieutenant William Mulcahey, and Firemen Leo Samman and John Kehoe. The man whom they rescued is John Reilly, 83. He was found overcome by smoke lying on the second floor of the burning house.

Mulcahey was burned by falling plaster as he braved the flames to rescue the aged man. Kehoe and Samman were burned by blazing tar from the roof of the house. All of the injured firemen will recover.

Origin of the blaze, which raged for several hours, was being investigated.

W. H. DUNN HEADS GOLF CLUB HERE

Annual Organization Meeting Of Club Held Tuesday; G. R. Deming Elected Vice-President

W. H. Dunn was elected president of the Salem Golf club association at its annual organization meeting Tuesday night.

G. R. Deming was elected vice-president and F. R. Pow was named treasurer. Clyde Brian was elected secretary. Various committees will be appointed next week.

The financial condition of the club was reported excellent. Several improvements are planned during the year together with a series of outstanding social functions.

The opening dance will be held in June.

Wet Democrat Named To Post In Congress

Springfield, Mass., Feb. 12.—The voters of the second Hampden district today sent a "wet" Democrat, Atty William J. Granfield, to congress, giving him a substantial margin of 6401 over his Republican opponent, personally dry but politically for modification.

Final figures, in yesterday's voting show: Granfield 31,150; Griggs 24,749.

BIGGEST DRIVE IN HISTORY OF PROHIBITION ON

Committee Hearings Have Started In Capitol; Many Present

SQUABBLES MARK FIRST MEETING

Action Is First of Kind In History of Dry Law Enforcement

WASHINGTON, Feb. 12.—Delayed by objections of dry members who want to curtail the hearings, the house judiciary committee today listened to proposals for repeal change of the eighteenth amendment for the first time in 10 years.

More than 200 wets from a half dozen states invaded the capitol for hearings which they proclaimed mark the beginning of the biggest drive in history against prohibition.

As soon as Representative George S. Graham (R) of Pennsylvania, chairman of the committee, had opened proceedings by proclaiming prohibition a failure, dry members were on their feet.

Representative Hickey (R) of Ind., said that Graham's outline of the hearings opened the door to prolonged discussions and declared for a definite restriction. Representative Summers (D) of Texas, supported him.

Trouble Ironed Out
When Representative La Guardia (R) of New York moved the hearings proceed, Representative Michener (R) of Michigan, warned the motion would be defeated if placed. The squabble was ended when Chairman Graham promised to bring the question of limiting the hearings before the committee in executive session.

The drys, he announced, would be given equal time with the wets.

Some of the wets most prominent advocates were present. They included Capt. W. H. Stetson of Baltimore, chairman of the Association Against the Prohibition Amendment; Ex-Senator Bruce of Maryland; Mrs. Charles H. Sablin of New York, head of the Women's Organization for National Prohibition Reform; Dr. F. W. Buck, secretary of the Federal Dispensary Tax Reduction league; M. NINETEEN HURT IN TRAIN CRASH

Nine Injured Seriously In Chicago Accident; Many Chaken Up

CHICAGO, Feb. 12.—Nineteen persons were injured, nine of them seriously, when two Chicago and North Western Railroad trains crashed here today. Many other persons were shaken and bruised.

An entire coach was demolished and two other cars were smashed by the rear coach of a train backing from a terminal into an incoming suburban train.

The most seriously injured were: Kinsey Asprey, Glen Elynn, broken leg, internal injuries; Dan Fogle, Wheaton, leg injured; T. S. Grafton, Glen Elynn, back and leg injured, and Eugene C. Lang, St. Charles, internal injuries.

AGENTS ACTIVE IN NIGHT CLUBS

Liquor In Possession Will Mean Arrest For Owner, New Ruling States

NEW YORK, Feb. 12.—A new feature in prohibition enforcement—arrest and prosecution of the possessors of liquor in a public place—was announced today by Prohibition Administrator Campbell, as he continued a campaign to mop up New York City.

Announcement that agents would arrest any person displaying liquor in a hotel, cafe or night club followed a raid last night on the Cornish Arms hotel and a well known cafe. Twenty arrests were made and a small amount of liquor was seized. The raid was the second in two days against hotels, padlocking of which will be sought.

Belboys, waiters and alleged bootleggers to date have been arrested, guests not being disturbed. Campbell also warned cafes and night clubs not to serve ginger ale and "accessories, such as glasses and ice, to persons carrying their own liquor."

A systematic raiding of Broadway's night clubs, hotels and cafes was predicted.

THE TURNING POINT

The Chicago police force, unpaid and unsung, is cleaning up. Its effort is a volunteer response to the indignation of citizens incensed by the most recent crescendo of hoodlum savagery that has terrorized the city with nearly a dozen murders, numerous bombings, shootings and robberies. Characterized as the "most ambitious cleanup in its history," the police department is apparently determined to carry on until the city is purged of criminals.

The first roundup, which placed nearly a thousand criminals and near-criminals behind the bars, was attended by the usual rush of professional bondsmen, attorneys and others interested in obtaining their immediate release, but bond was placed so high in most cases that their efforts were futile. This expurgation is neither a political maneuver nor a money-making scheme, the hoodlums are discovering.

Chicago police are making social history by their display of initiative at this dark time in their city's life. It was natural that the Criminal element would try to take advantage of chaotic conditions and, fortified by their success in the past, a flying start was made on an orgy of crime. The city, apparently, was helpless, just right for the biggest killing in years. But the citizens, tried to the breaking point, have discovered their power and the combined orders of racketeers and pugilists can anticipate hard sledding. They are no longer reckoning with William Hale Thompson; they have broken past him to the wrath of the millions whom he represents in his peculiar fashion.

Chicago announces that she will purge herself of hoodlums but what will become of them? Will they be released to find their way to the underworlds of Cleveland, New York, Detroit, Philadelphia, Los Angeles and other green pastures? It is unfortunate that the nation cannot be aroused simultaneously with Chicago to the necessity of putting an end to the hoodlum element. Shifting it from one population center to another can only bring temporary relief.

BOY SCOUT WEEK

Boy Scouts of America are celebrating the twentieth anniversary of their organization this week. More than 840,000 boys and 200,000 scoutmasters will participate in the observance, which has the support of every socially sympathetic person in the nation.

It is estimated that 4,000,000 American men have received the benefits of Scout ideals since their inception into an organized movement in this country by the late W. D. Boyce, Chicago publisher. It is due largely to their gratefulness and appreciation of the benefits they derived that the Scout movement has grown to its present vast proportions. New groups are being introduced constantly into their ranks with a proportionate increase in enthusiasm and it is predicted that there will be 1,000,000 scouts by 1935.

Some men find their pleasure in building things of stone, wood and steel. Others make their contributions in law, literature and the higher arts. Millions spend their lives repairing the damage done to lives and objects by the ruthlessness of the world. The men who find time to devote to the building of character are comparatively few in number but their work is valuable beyond calculation. Many of them give their effort, others receive nominal remuneration; their sufficient reward is youth manhood better fitted to cooperate with the world for the advancement of higher social ideals.

No order ever instituted in the United States has yielded a better trend for wholesome civic life than the Boy Scouts and Salem receives with enthusiasm their efforts to fill the city, county, state and nation with men well equipped for the work which they will perform.

Victor Emmanuel II is another one of those who is watching af-

fairs in Spain with interest, especially since the report that his brother monarch there is gaining ground.

What Others Say

CLASS ENEMIES IN RUSSIA
In Soviet Russia the "deceased" population consists of employers of labor, private traders and ministers of religion, who are deprived of political rights and the normal civil privileges—education, housing, medical service and the various forms of social insurance. It has been estimated that between one-third and one-half of the Jewish population of Russia, as consisting of former bourgeois who have not succeeded in obtaining a foothold in the proletarian scheme, is thus decimated. The size of Russia's outcast population is now to be enormously increased, it seems, by the addition of several million kulaks, or so-called "rich" peasants, against whom the Soviet government has proclaimed a way of extermination.

When it was first reported from Moscow that kulaks would not be permitted to join the collective farms now being rapidly organized, it was suggested on this page that this bar perhaps applied against the rich peasant only as a rich peasant. If he voluntarily divested himself of his superfluous property and changed into a poor peasant, his disabilities would cease. This interpretation, Mr. Duranty now describes as "charitable." The fate reserved for the rich peasants is much more severe. They are being expelled from the collective farms and sent to the "kolkhoz" camps. A writer in the Red Star declines to worry about what becomes of the kulak when he has been "liquidated" as a class. "Let him fall under the first automobile or spend the rest of his life in exile." Only the voice of Krupskaya, the widow of Lenin, has been raised in protest, and that in behalf only of the children. She thinks it wrong when the kulak has been deprived of his land and his children should be expelled from the school as children of a "class enemy."

Nevertheless, quite aside from the fact that there are not enough automobiles in Russia for several million kulaks to throw themselves under it, it is hard to believe that the Soviet government has actually adopted a policy involving the death by starvation of several million peasants and their dependents. As Dr. Duranty's dispatch of recent date goes on to show it is not as bad as that. The former kulaks are to be in the lumber and construction camps. In other words, they are to be exterminated as a class; as individuals converted to proletarianism they are to be permitted to live except for the casualties involved in the transformation. Of additional significance is Mr. Duranty's statement that the liquidation of the kulak class will probably be a gradual process. This is somewhat reassuring because of the extremely flexible meaning attached to the word kulak by the Soviet government. It really means an opponent of the government. A poor peasant becomes a kulak if he lines up with the opposition. Under new conditions, the reverse is conceivably true. A rich peasant by divesting himself of his offensive possessions in time and automatically reducing himself to a poor peasant may conceivably win forgiveness and admission into the collective. Prudential considerations may also militate against turning several million dispossessed peasants adrift, embittered and desperate. Their presence in the lumber camps or road gangs would introduce a doubtful element in what is now a stronghold of soviet authority.—New York Tribune.

HEALTH

By Dr. Royal S. Copeland

WINTER "SHUT-INS"

Winter sports are becoming more and more popular each season. Fashions favor them, society favors them, and so do the doctors.

DR. COPELAND

If you are tired out after the whirl of the city of business and social cares, why not try a change of scene? And winter sports? Nothing is more health-giving than a change of scene and some form of recreation which combines with it pleasure and the benefits of health.

What is more wonderful than a winter's day on the mountain sides, or in the woods? You may ski there, or snow shoe, for miles at a time, through unbroken paths. With the snow, pure white and deeper, perhaps, than your head, you see Nature from a viewpoint that you cannot see in any other way.

Such exercise plays upon every nerve and muscle of the body. Your senses are keener, the blood is stimulated into new life, and with it new vigor comes. I often wonder that so many of us neglect these rare sports of the winter time.

And after you return from the day in the snow, you feel that the soul has gotten there before you. A blazing log or two, a good supper, some drowsy bantering, and you are to bed! Sleep is good. Maybe it never was so good?

Skating is a wonderful exercise. Everybody can have this sport without going far for it. In the cities, now, are the out-of-doors skating rinks where for a small sum, the populace goes, skates in hand, any day or evening. This has always been a fascinating sport, and in grandmother's time it was considered as much of an accomplishment to skate well as to dance well.

Never before, perhaps, have the out-door sports been more in evidence than this season. At St. Moritz, Lake Placid, in Canada, or in some of the colleges and kindreds with their winter carnivals, people flock for healthful sports. All this gives an added impetus to sports everywhere.

Don't spend all your recreation time in the close atmosphere of public places. Be out-of-doors for as much time as you possibly can. Muscular exercise is important because it stirs up the chemical and biological changes of the body. If you wish muscular strength, you must exercise the muscles. If you want to have an active, virile mind, you must exercise that.

Nobody can have good health with out proper exercise, fresh air and sunlight. Nutrition is of importance too, but real bodily vigor depends on all these things, combined. Healthful recreation is of vital importance to this end.

As a lexicographer of no mean ability, as ability goes in this day of latitude and longitude, I would ask for a little space in The Salem News for the purpose of instructing its readers in the latest styles of pronunciation for English words. I feel that the people of Salem are not averse or indifferent to the fashions of the day, and would therefore no more think of mispronouncing their words in polite society than of visiting neighboring communities short skirted at a time when fashion had decreed bare legs unseemly.

There was a time when custom required one to consult the dictionary when in doubt of a word, but that practice has become obsolete. The dictionary now lies on the shelf with the Bible. Nobody cares to be governed by its rules and examples anymore. When in doubt of a word, we now turn to the dynamic speaker of our tuned-in radio, a practice most inviting; for we thus receive our pronunciation fresh over the air each morning.

There is much to say in favor of this method, sufficient, however, to know that it is characteristic of the languid tenor of this day of button-pushing. It furnishes both entertainment and instruction synchronously, without the exertion of any physical or mental effort on part of listener. Only slaves of habit would scold the practicability of this new school. Naturally there have been some objections raised against it, the most reasonable being that the school has a tendency of destroying our King's English, that is to say, that it will result in our people's speaking in dialects. But since this argument is based upon the presumption that the dictionary is infallible, it becomes obvious why no intelligent person has yet argued against that point.

It is not a question as to whether the new styles of pronunciation follow the rules laid down by the dictionary. We all know they don't—at least all who have been listening. In did they conform, my efforts here would be unnecessary. Indeed, it is because of the nonconformity that it has become necessary to direct the people to this new source of information, especially, I might say, since some of those who are already drinking at that fountain are too selfish to reveal its existence to others. So long as the source of knowledge is kept a secret, they can pose as leaders of the new style. Their unique pronunciations give them an individuality much desired by elite temperaments and besides, an exclusiveness that is astonishing.

For the little time and trouble that it takes to secure such distinction, I would urge my readers to make use of the radio. Should they become impatient with some of the new pronunciations at first, they may rest assured that the pain will soon pass away. In a few weeks at most, they will have become so well accustomed to the new sounds that they will take to them like a kitten to its milk. The student need

entertain no fear that his radio will misinform him. All that is required on his part is a little faith in the artists that are broadcasting. He must believe that the singers, comedians and Jew-harpers will put nothing incorrect over the air if they know it.

These of my readers who have no radios of their own, are of course naturally behind the times in word pronunciation, I shall therefore try and bring them up to date by supplementing a brief review of what has taken place relative to articulation since the advent and recognition of the new school. Attention will first be called to those words such as telegram, suffix, "gram," such as telegram, suffix, "gram," program, program and the like. In the pronunciation of such words, the latest style is that of rendering the "a" silent. Those of our announcers who have become students of the new school make this very clear by the manner in which they pronounce the word "program." If you are interested, go to one of your neighbors that has a radio and tune in—preferably into one of the smaller stations—and you will hear the announcer, in speaking of his program, giving the "a" the "u" sound thus, pro-gram. This will give you the key to all other words ending with the same suffix. Hence you will no longer say mono-gram but mono-gram ner tele-gram and epi-gram but tele-gram and epi-gram.

It will be noticed that such a rendition requires less muscular effort on part of the organs of articulation than if the long sound of "a" were retained—a most desirable accomplishment, for it helps in hiding any emotion one may experience during the course of conversation and at the same time lends that much desired Oriental touch of nonchalance to the speaker.

A kin to the suffix "gram" is that of "ary." Here the "a" is also rendered silent. Hence such words as mercenary, imaginary, necessary, dictionary, etc., must be pronounced as if written: mercenry, imaginry, necesry, dictionry and so on. Now if you can pronounce these words so as to render the "a" sound no rougher than a fly speck on the back of a toad, you will have it just right.

Way to Get At a Cold Is Through the Bowels

As soon as you catch cold, the pores close; perspiration is checked. Gases and waste can't escape through the skin. That's why your doctor's first advice in case of colds is a mild laxative like Cascara. Medical authorities agree it actually strengthens bowel muscles. You get cascara in its most pleasant form in candy Cascarets.

Remember this when you catch cold; whenever breath is bad; tongue coated; or you're headachy, bilious, constipated.

Why resist to harsher things when Cascarets activate the bowels so quickly, so harmlessly and pleasantly—and cost only a dime? Adv.

SPACIOUS LINER RUINED BY FIRE; TWO MEN KILLED

Spontaneous Combustion
Believed Cause Of
Four Explosions

NEW YORK, Feb. 12.—The once-beautiful German liner Muenchen which had just steamed proudly into port from Bremen was only a smoldering hulk today.

Fire which boiled through the hold of the vessel shortly after the 267 passengers were safely ashore was attributed today to spontaneous combustion. The cargo included inflammable potash and nitrate.

Four explosions followed the flames. They ripped holes in the heat-blistered sides of the liner and sank her keel to the mud of the Hudson river alongside the pier.

A fireman and a member of the crew were killed. A dozen persons, mostly firemen, were injured.

Fireboat Pilot Killed
John Harvey, pilot of the fireboat Thomas Willett, was hurled overboard from his craft, from the force of one of the thundering explosions. He sank unconscious into the icy waters. His body was recovered hours later.

Gustav Franke, electrician of the Muenchen, was believed to have lost his life in the line of duty. He was last seen at the power control box shortly before the first terrific blast. After almost 24 hours of battling the flames, firemen today announced they had the first under control. It was feared previously that further explosions might occur or that the liner might totter over on the adjoining pier.

Damage was estimated at from \$2,000,000 to \$2,500,000.

OPPOSITION TO HUGHES GROWS

Confirmation Must Come
Soon or Not At All,
Leaders Believe

WASHINGTON, Feb. 12.—The opposition to confirmation of Charles Evans Hughes as chief justice of the United States, growing hour by hour, was developing today in the senate to a point where administration leaders were hoping to force an early vote on the appointment to avoid a prolonged battle.

The naming of Hughes to the highest judicial office in the nation was opposed on the ground that he has prejudiced opinions on all the great economic questions affecting trusts, railroad valuations, freight rates, street car fares, radio control, and regulation of public utilities. Holding such views as he has expressed in recent law suits, the opposition argued, Hughes was disqualified.

The opposition to Hughes has grown with amazing speed. When he was nominated for the high court a week ago, it was believed he would administer justice conceded, be unanimously confirmed. Now, there will be from 15 to 20 senators voting against confirmation. If the contest should last another week, they added, his confirmation would be doubtful.

Warren Faster Nears Month Without Food

WARREN, O., Feb. 12.—Richard Stewart, Warren rug merchant, entered the 28th day of his "hunger strike" in Trumbull county jail here today in protest to his incarceration because he refused to pay a fine for molesting a woman.

The starving rug merchant stolidly continued to refuse food. The man is beginning to show the serious effects of his self-imposed fast. He is losing weight rapidly. Physicians, however, who have examined him, declare that he is in good physical condition.

Tobacco smoke is the only thing that annoys the prisoner. On several occasions he has shown signs of collapsing from the smell of cigaret smoke, but always, in such instances, he braces himself with a drink of water and continues to refuse food.

Approve Payment

WASHINGTON, Feb. 12.—The house ways and means committee today approved a bill authorizing payment of approximately \$2,500,000 to German owners of patents seized and sold during the war, to the chemical foundation, and leased by it to the government without cost.

chamber. Those who were left outside set up a disturbance and it was when police attempted to quiet the mob and to clear the streets and sidewalks, that a half dozen men leaped at Lieut. Torrence.

Battle Grows Wild
Immediately the mob grew wild and turned the scene into a furious melee.

Police reinforcements attempted to subdue the riot, but the large numbers of the jobless army proved too much for the handful of police. It was only when two fire trucks picked up to the scene and threatened to give the maddened mob a ducking that the army of jobless retreated.

After the riot had subsided, to some extent the council conference resumed its deliberations. A motion was unanimously adopted by the council committee to call upon the citizens of Cleveland to give food and clothing for the destitute jobless.

Hoover's Fish Will Hang In Florida Fishing Club

LONG KEY, FLA., Feb. 12.—The 45-pound sailfish that President Hoover landed on the first day of his winter vacation here is to be mounted and hung in the big living room of the Long Key Fishing club.

That is, of course, unless he catches a bigger one—in which event the extra poundage will get the call.

George W. Schutt, manager of the fishing club, had the sailfish skinned and sent to the taxidermist who does all his work for mounting.

The presidential catch will hang alongside a number of extra ordinary fish. Of chief interest is the 122-pound sailfish that Zane Grey landed after a seven-hour battle over 10 years ago. Grey was president of the

fishing club for the years 1917-19.

Mr. Hoover will have to exert himself for the first of the week to live up to his reputation as a fisherman of more than average ability. Yesterday, Dr. Vernon Kellogg, one of his guests, caught a sailfish weighing 52 and a guest at the fishing camp brought one in that came to 63 pounds. Seventy-one pounds is the record for the season in this type of fish.

Today, the executive and his friends put off in their launches to try their luck off Long Key as against yesterday's cruise up the coast to Alligator Lake.

The president is replying rapidly to his first holiday. Already the hot tropical sun has burned him a bright red and he will return to Washington well tanned.

**BANDIT SHOT IN

Policeman Uses Gun From
Bandits In Halting
Two Suspects

COLUMBUS, O., Feb. 12.—With a bullet wound in his left arm, a man who claims he is "Chuck" Higgins, 31, of Indianapolis, is in St. Francis hospital, and another bandit suspect, who gave his name as Floyd Farris, 26, is in jail here today following a shooting duel with Patrolman J. W. Terrell.

The wounded man is not "Chuck" Higgins, boxer, police say. He refused to give his right name.

Farris is a learned by police, is a soldier who has been stationed at the Fort Hayes barracks. He has been absent without leave since Sunday.

The two men had been followed by Officer Terrell, who suspected them of holding up a drug store and a restaurant. He commanded the pair to halt, and began searching them. While he was searching one of the men, the other pulled out a revolver and fired, the bullet coming within the fraction of an inch of lodging in the patrolman's chest.

A fight ensued and the officer dropped his mace. One of the men picked up the club and struck Terrell a stinging blow on the head. Terrell was merely stunned and he gained possession of the bandit's gun. The pair fled, and Terrell fired. Higgins fell when he was struck by the bullet and Farris stopped and surrendered.

GIRL UNABLE TO CEASE SOBBING

Ether Gives Only Relief
In Sixty Hours; No
Reasons Known

ATTLEBORO, Mass., Feb. 12.—Sixty-four hours of sobbing, with brief spells of natural crying, and Miss Violet Michael, 13, was giving physicians and relatives serious concern today.

The girl, who had always been healthy and normal, first showed emotion at 6:30 o'clock Sunday evening when her mother left for a trip to New Bedford, Mass. The girl's mother returned from New Bedford yesterday but Miss Michael could not by her own will stop sobbing.

By the use of ether administered by her physician, Miss Michael was able to get three and a half hours sleep after she had sobbed 18 continuous hours but resumed sobbing as she awoke.

While the life of Miss Michael was not considered in danger as yet, continuation of the sobbing might become general weakness which might cause serious, her physician said. No effort was planned to etherize the patient into a comatose state, it was declared.

Curious persons were not allowed entrance to the house where Miss Michael is living.

Brilliant Mass, Attended By Many

VATICAN CITY, Feb. 12.—Pope Pius attended a brilliant mass in the historic sistine chapel of St. Peter's cathedral today in commemoration of the eighth anniversary of his coronation.

His Holiness was carried to the chapel in a sedan chair from the Vatican palace, accompanied by a procession of high church dignitaries and the papal guards in their picturesque costumes.

The mass was celebrated by Cardinal Sincero, the pope sitting in a gilded throne at the side of the high altar. Twenty-three members of the college of cardinals took part in the services.

The King of Sweden and a large number of Italian nobles, as well as most of the diplomatic corps, witnessed the mass.

WANT TO LOOK YOUNG?

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards Olive Tablets are gentle in their action yet always effective. They help bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Doctor Has Idea To End Crime Wave

CHICAGO, Feb. 12.—A simple method to end Chicago's crime wave today had been advocated by Dr. E. H. Collier of Battle Creek, Mich., who forwarded his opinion to the city council here.

"I read every day that your criminals escape by running down alleys," wrote the eminent Dr. Collier. "Why not padlock your alleys?"

This excellent idea cannot be carried out at this time, Alderman John Coughlin explained, because the city is too broke to buy the padlocks.

Policeman On Trial
CINCINNATI, O., Feb. 12.—Major Elmer D. (Tip) O'Neil of the Cincinnati police department, was to go on trial here today on charges that he had induced the suppression of evidence in a case in traffic court.

WANT TO LOOK YOUNG?

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years.

New Ambassador to Germany Received

BERLIN, Feb. 12.—Presenting his credentials to President Von Hindenburg today, United States Ambassador Frederic M. Sackett declared his primary aim while in Germany was the promotion of increased friendly intercourse and understanding between Germany and the United States.

He pledged himself to increase and fortify the now-existent harmonious relations between the two countries in every possible way.

The similarity of the aims and ideals of the two republics of the United States and Germany which was already afforded a fruitful scope of co-operation in the field of international conciliation," he said. "is a source of great satisfaction to my government and the American people and will continue to be an inspiration to my mission."

The Windy City's chief interest now is in money and murders.

Today's Pattern

So simple, yet so very smart, this top coat for the young girl. The long rolled collar has been adapted by the younger set from the charming adult models one sees. The well tailored sleeves are plain and set in. One large attractive button fastens the coat.

For immediate wear, I would suggest tweed, velvet or broadcloth as suitable fabrics for the development of Pattern 1840. For Spring days, jersey, kasha or serge would be charming. The model may be lined or not, just as one desires.

Designed for sizes 4, 6, 8, 10 and 12. Size 4 requires 1 1/2 yards of 34 inch material.

No dressmaking experience is necessary to make this model. The pattern has ample and exact instructions. Yardage is given for every size. A perfect fit is guaranteed.

WET DRIVE

(Continued From Page 1.)
Women's Moderation Union; Walter W. Liggett, writer who stirred Boston with articles on prohibition.

Declared A Failure
"The Eighteenth Amendment and the enforcement law have been tested for 10 years without satisfactory results," said Chairman Graham.

"No one wants the restoration of the old conditions of the saloon. We may well ask, cannot control and regulation of the liquor traffic supply the place of prohibition?"

While Rep. Sabath (D) of Illinois, was arguing for state control of liquor, Rep. Michener rebuked the audience for applauding.

Liggett, the writer, was called upon to testify and stated:

"Gentlemen, there are 700 speak-easies in Washington, operating day and night," he said.

"There are 4,000 bootleggers in the national capital. I think I can prove that 1,600,000 gallons of liquor are consumed each year here. There are six million gallons of home brew made. I proved this by checking up on the sales of wholesale groceries and other stores."

"Arrests for drunkenness are increasing as well as other crimes in Washington. Arrests for drunkenness alone have trebled since prohibition."

Liggett then turned to Boston, where he recently conducted investigations.

Before prohibition there were 1,000 open saloons in Boston. Now there are 4,500 open speakeasies and 15,000 purveyors of liquor. They carry on with police corruption. This corruption has touched higher ups, even ex-governors, ex-secretaries of governors and congressmen.

Turning to Kansas, he said: "There isn't a town in Kansas where I cannot get a drink of liquor and good liquor at that in 15 minutes."

He said he found bootleggers operating in 16 counties in Kansas. Wichita, he said, is wide open.

"I visited one of the clandestine road houses I ever saw outside Wichita where there was open gambling and drinking," he said.

Five minutes after he went into the best hotel in Topeka he was offered a pint of liquor by a bell boy, he testified.

He estimated that six million gallons of hard liquor are consumed in Kansas each year alone. A checking up with railroad officials showed that 600,000 gallons of home-brew are drunk each year in Topeka, he said.

Liggett started the committee by asserting that the governor of Michigan, chief of police of Detroit and chief of the state police attended an all night debauch in a roadhouse outside Detroit on the evening of November 3 and morning of November 6, 1929.

The liquor was furnished by Denny Murphy, a gambler, and nude girls danced, he said.

"You have the proof?" interrupted Rep. Michener.

"The statements I make are criminal libel and I will furnish the proof if called upon but I will not be called upon," said Liggett.

HOLLYWOOD, CAL.—John McCormack, Irish tenor, and Will Rogers, humorist, have unique dressing rooms side by side at one of the studios. McCormack has a typical Irish cottage, while Rogers has a spacious Hacienda style ranch house.

Colored linens are also "white goods" today. The term still denotes sheets and pillow cases and towels and tablecloths, but they are no longer confined to white. And from a touch of color on informal lunch-cloth cloths the idea has spread until everything—even the most elaborate dinner cloth for a formal occasion, is likely to have a fashionable touch of color.

COURT NEWS

Sue On Note

The Engineers Supply and Manufacturing company has taken judgment in common pleas court against The National Tire and Rubber company for \$2,007.61 owing on a cognovit note.

Leave to the defendant to file an answer at once has been granted by the court in the appeal case of Goldberg Bros. against Fred Hopewick.

In the case of the Unadilla Silo company against W. J. West and others as partners, leave has been granted the defendants to file their answer by March 8.

There has been a dismissal at the costs of the plaintiff in the case of the American Brass & Iron Co. against E. G. Whitacre doing business as the Whitacre Boiler company. The original petition sought to collect on a claim of \$1,789.17.

Seeks Divorce

Harold Sayre has filed an action for divorce in common pleas court against his wife Anna Sayre, said to be residing at New Cumberland, W. Va. Gross neglect of duty is set up as a ground of action. The couple were married March 1, 1925, and two children are of issue, the custody of which is sought by the plaintiff.

Receiver Is Named

Following the filing of an application for a receiver for the Allison-Harris Construction company of East Liverpool, made in common pleas court late Tuesday afternoon by Attorney Walter B. Hill of East Liverpool, Judge W. F. Lones appointed Attorney Ben L. Bennett as receiver, with bond being named at \$50,000.

Previous to the court sustaining this motion, an action was filed by the First National Bank of East Liverpool against the company to recover on a cognovit note, and judgment was entered in this case in favor of the bank for \$13,114.68. The petition asking for the appointment of a receiver for the company was also filed by the bank.

An affidavit in assignment has been filed in Probate Court by the Harris-Bulck company of East Liverpool with Russell C. Heddleston being named receiver, with bond being placed at \$12,000. No schedule of assets and liabilities has been filed other than the statement estimating the personal property of the company being worth \$6,000. A schedule of assets and liabilities is expected to be filed later. Attorney Walter B. Hill is counsel for the assignee, with Attorney J. H. Brooks representing the company. Attorney Ben L. Bennett is representing some of the larger creditors, according to the record.

Bank Is Named

In the case recently filed in common pleas court by the city of East Liverpool against the Potters National bank of East Liverpool to recover \$1,146.46 claimed to be owing the corporation as an interest

charge on its sinking fund account, the banking interest through its counsel has filed an answer, denying the fact that it owes the municipality any money at all.

Suit Is Filed

The East Palestine Lumber company has filed suit in common pleas court against the White Clay Mine company for \$1,636.64. The claim is based on an account for merchandise sold the defendant by the plaintiff.

Commissioners Report

The report of the commissioners has been set aside in the partition action filed by Albert D. Bower against Cora A. Briggs and others, and an alias writ of partition has been ordered by Judge W. F. Lones. Commissioners appointed are Anton Meisner, B. F. Flick and H. W. Young.

"SUNNY SIDE UP"

At The State
Capacity audiences are expected to greet the musical comedy debut of Janet Gaynor and Charles Farrell when they make their bow at the State theatre today in "Sunny Side Up," singing, dancing and talking production.

Miss Gaynor and Farrell sing several song numbers and Janet also displays her versatility by doing a jazz dance number that is reported to be one of the sensations of the production.

Seven songs have been provided for "Sunny Side Up" by DeSylva, Brown and Henderson, who also wrote the story and dialog. At least six of them are expected to become sensational popular favorites and take rank with others of their best sellers.

A supporting cast of unusual strength surrounds the stars, including Sharon Lynn, Frank Richardson, Marjorie White and El Brendel. In addition, there is a chorus of 100 dancing, singing beauties.

"STREET GIRL"

At The Grand
Betty Compson will play "My Dream Memory" for the last time at the Grand Theatre tonight when "Street Girl," the all-talking, all-musical picture ends its sensational run.

Already local dance orchestras are beginning to play "hits" from this film, which has been voted by fans as one of the most captivating of the season. John Harron, Jack Oakie, New Sparks, Joseph Hawthorn, Ivan Lebedeff and Guy Buccola support Miss Compson in the gay little romance of New York's "Little Hungary," which Wesley Ruggles directed.

Grange To Meet

Greenford grange will hold a session next Tuesday afternoon, observing Kelley day. Kelley was founder of the national grange organization, some 60 years ago.

In the future Greenford grange will hold its meetings on the first and third Tuesday evening of the month.

Salem Masons Continue In First Place In Inter-City League

Masonic Bowlers Win 43 Games, Lose 29 In District Competition

Salem Masons, entrants in the Northeastern Ohio Bowling league, continue to lead the circuit with 43 victories and 29 defeats, topping the Alliance Masonic team by 82 percentage points.

Salem's entries have a percentage of .597 to Alliance's .515. Massillon, with 33 wins and 39 defeats is third and Sebring, defeated 38 times in 66 games, is in fourth position.

THE DAY In Sports

SALEMVILLE FIGHTS
CLASS B GAMES TONIGHT

Bantamweights will feature the 22-round fight show to be held at the Knights of Columbus hall, Salemville tonight in which Joey Bova of Salem, starts his pro ring career. Joe Long, Alliance, who has fought here several times, meets Young Kelly, Akron, in the main go while Jackie Welch, Alliance, clashes with Earl Grates, also of Alliance, in the semi-final.

The Salem youth meets Tommy O'Donnell, flashy Akron scrapper in the main preliminary of four rounds at 130 pounds. Bova has been working out for the past week and is expected to trim the Akronite. A large gathering of Salem fans is expected to witness his debut.

Four Class B league games will be played at the Memorial building gymnasium tonight as a result of postponement of three games scheduled last Monday night. The Baptists meet the Episcopalians in the first game at 7 o'clock with the Little Gems opposing the Pottery in the second. The Lutherans clash with the Methodists in the third contest and the Fender Benders vie for honors with the Lease Drugs in the finale.

The McArtor Florists meet the championship Golden Eagles in what is likely to be the important battle of the second half in the Class A league, Thursday night. The United Cigars oppose the Grate Motors in the first Class A contest tomorrow.

Oberlin, Massillon anchor man, stepped into the lead in high score for a three game match, topping the maples for a 701 total on his home alleys last month. His score pushed Virgil Rakestraw of the Salem team into second place for three-game honors with a 698.

Rakestraw continued in the lead for high individual score for a single game with his 268 performance, rolled at Massillon last November. Crankshaw (Sebring) is second with a 264-game while Weick (Massillon) is third with an even 250.

Oberlin Tossups Averages Oberlin, together with holding first place in the three-game high score totals, leads the league in averages to-date with 196 for 33 games. His 652-game, rolled on December 12, at Sebring, gives him third place in the same race he leads.

Salem teams hold first, second and third rankings in the high single scores for five men. The highest score by Salem was 997, the second 988 and the third, 982, all amassed on its own hardwoods. Massillon's 976 is fourth for high team honors.

Salem is third in the contest for high score for three games, holding a 2,792. Alliance tops it in first place with a 2,832 while Massillon is second with a 2,830.

Joe Reese, consistent veteran of the Salem quintet, holds second place in averages with a 191 for 36 games. Jones of Sebring is third with 189 in 27 efforts.

In team averages, compiled as of February 10, Alliance tops the Salem team by five pins. Alliance rollers average 174 to Salem's 169 while Massillon is third with 168 and Sebring fourth, two pins under Massillon's total.

Leading averages of bowlers in the league follow:

Joey Thomas Loses Liverpool Battle

EAST LIVERPOOL, Feb. 12.—Eddie Brannon, colored Pittsburgh scrapper, won an easy eight-round decision over Joey Thomas, Cleveland, in the feature bout of a fight show held at Eagles hall here Tuesday night.

Brannon easily outclassed Thomas all the way, punching him all over the ring but was unable to put across a kayo wallop. He took every round from the Cleveland.

Johnny Demco of Weirton, W. Va., won the nod over Harry Devore, Alliance, in the six round semi-final. Demco knocked Devore to the canvas three times for the count of nine but Devore came back in the fourth and fifth round to make the fight even. Demco's shade over the Alliance entrant in the final session gave him the decision.

Carnera Coming Champ, Says English Sports Writer

BY DAVIS J. WALSH
NEW YORK, Feb. 12.—Jack Sharkey may win the heavyweight championship of the world in June but he will hold the title no longer than the moment that he and the "Beeg" Bimbo Primo Carnera, enter the same ring on the same evening and in the same prize fight. This, it seems, goes too far for Max Schmeling; likewise for Phil Scott. There are excellent champions, so to speak, but they merely are minding the heavyweight championship while Primo is out of town making Barnum look like a yokel.

Trevor Wignall, the English writer who probably knows more of the four men in question than any authority in America and Europe, arrived in New York today to make this assertion and others equally startling. For one thing, he said he had taken 2 to 1 that Scott would beat Sharkey if Phil came up for the sixth round and that all England was figuring the same way. For another, he declared that Carnera would keep the heavyweight title until death did them part.

"He's unbeatable," said the Englishman, "and being that he is only 22 and improving all the time, I believe he will stay that way. I say this because there never was another man like him and because I am assuming that there never will be another."

"His strength, his speed, his punch, his size combine to make him a man apart from all others. It's just no use. He is going to win the heavyweight championship and all the Sharkeys, Schmeling and

McArtor Florists Defeat Art Jewelers For Third Consecutive Victory In Class A Loop

Printz Klub Forfeits To Electric Furnace By Non-Appearance

McArtor Florist continued their winning streak in the second half of the city Class A basketball league, taking their third straight triumph by handing the Art Jewelers a 22-20 setback at Memorial gym Tuesday night.

It was another of those sensational contests that have featured play in the league all season. The Posies held the edge most of the game but were almost beat out in the last period when Pete Sanders was forced out of the contest by an injured ankle and Wilbur Springer was ejected on four personal fouls.

The Jewelers tallied four points to the Posies' two in the first quarter but were outscored, 14-9, at the half. The McArtor combination continued in front by this five-point margin in the third period, which ended with the count 20-13.

Springer accounted for 14 of the McArtor team's points, through seven field goals in the first three periods and his departure from action was a handicap to the Posies that almost resulted in their setback. One field goal was all the winners were able to tally in the final session while the Jewelers tossed in two fielders and a foul.

Art's Rally Falls Short
The Art's rally fell short. Andy Hann's long distance heave which brought them within two points of a tie game, zooming through the hoop just as the game ended.

Springer and Flip were the heavy guns on offense for the winners. Flip held Desmond, star Jewelers center to four points, two of them coming via the charity stripe.

The Printz Klub failed to appear for the scheduled game with the Electric Furnace and forfeited the decision. A team of pickups furnished practice opposition for the furnace-makers and dropped a 27-13 decision.

Lease Drugs easily annihilated the First Baptists, 30-20, in the Class B prelim.

Wooster To Play Kenyon Thursday

WOOSTER, O., Feb. 12.—The Wooster college basketball team, undefeated in six Ohio conference starts, will have to play at top form this week to keep the state clear. Wooster plays Kenyon at Gambier Thursday and Akron U on the home floor Saturday. Kenyon's surprise 39-29 victory over the strong team

at Ashland last week is taken here as proof that Coach Evans now has his quintet at peak form. Akron at Wooster is being billed as the feature game of the home schedule. Akron was defeated when the two teams met at Akron the middle of January.

TASTE!

WHAT seems like a slight difference, in one cigarette, grows mighty important in a month's smoking.

You might take Chesterfield's silky mildness for granted—but just notice that it never tastes "flat." And where else but in Chesterfield will you find such delicate shading of flavor, such spicy aroma of choice tobaccos, such rich and satisfying character?

Better taste is *always* important—and in Chesterfield it's

HERRON MOVES GOODS SAFELY

Long Distance and Local Work Done by Salem Trucking Concern

"A load on our truck is a load off your mind" is the slogan which A. J. Herron, Salem trucking and moving concern emphasizes in placing before the public the service which has established his business as outstanding.

A fleet of motor trucks is operated by Herron and goods moved by him seldom, if ever, suffer any damage. All goods, furniture with mirrors and the like, are handled with the greatest of care.

Most businesses speak for themselves to a great extent. The advantages of moving the Herron way have been displayed the patrons of his service in so many ways that his concern is an excellent example of this fact.

Long distance or local hauling is accomplished by Herron. With spring coming on with great rapidity, the moving season will soon be here. Many persons will change residences during the next few months. If so, try the Herron way of moving.

Perils Of Mechanical Mishaps Decreased Greatly In Modern Improvements By Chevrolets

Evidence of the manner in which the automobile manufacturer is furthering the cause of safety by eliminating the hazard of mechanical mishaps is shown by the many safety features incorporated in the new 1930 Chevrolet. M. P. Edwards, Salem Chevrolet distributor, announced today.

Notable among the safety devices in the car are the Chevrolet designed internal brakes which are new in their field. Many a motorist has had the unnerving experience of descending a long mountain grade to find his brakes becoming less effective the farther he descends—a failure known technically as "fadeout" and due to heat generated between the brake shoe and drum which warps the shoe and lessens the contact of the brake lining with the drum. The hotter the brakes get, the less efficient they become.

Tests on the General Motors proving ground show that fadeout has been eliminated in the new Chevrolet brake by a method of construction known as the "articulated shoe type," which compensates for heat distortion, and assures uniform braking facilities under all conditions of temperature. The wear on the brake lining also is uniform.

Another safety feature of the new Chevrolet is the non-glare windshield on the new Fisher bodies. By the simple expedient of tilting the windshield slightly inward, instead of mounting it vertically, the reflected light of an approaching or following headlamp is deflected downward away from the driver's eyes. The twin-beam headlights, which enable the driver to throw the light on the road out of the eyes of an approaching driver, are a further Chevrolet contribution to the greater safety of the highways.

Proper Fitting Of Shoes Important To Health

Need of proper footwear, together with maintaining best appearance of shoes is stressed by B. M. Mackintosh and W. D. Chalfant, partners in the Chalfant-Mackintosh shoe store in this city.

Both men are veterans in Salem business. Chalfant has been an expert in footwear for years and is one of the district's leading fitters. There is no foot too hard to fit, according to the men. They cater to the foot that other stores find difficult in fitting and always have sent patrons away satisfied.

The shoes are one of the most important items in a person's

dress, according to them. "Take a moment some day and observe how others dress and make comparisons with yourself."

"In many cases we pay too much attention to clothes. From their hat to their feet their dress details harmonize and the ensemble, naturally, pleases the average individual. But in care fails, generally, to extend to the shoes."

"An individual is too apt to sport a new hat, a repudiated necktie and fancy shirt, than to have his shoes kept up to proper style. And the shoes are probably the most important item of all. The person with rundown heels, shoddy and ill kept shoes can never hope to achieve a well-dressed appearance. No matter how much he spends on other wearing apparel, it simply can't be done."

Together with stressing the appearance of shoes, the Chalfant-Mackintosh concern emphasizes the need of fitting the feet with proper footwear. The feet are essential parts of any person's well being and no person can feel in perfect health wearing shoes not fitted to his feet.

Candies Arranged For Observance Of Valentine's Day

Valentine's Day, observance of a tradition that dates back into the earliest years of man's existence, will be observed in Salem Friday.

The novel manner in which many persons observe the day is the circulation of greetings, through cards and picturesque pictures, to friends but lately, according to J. M. Hendricks, Salem candy manufacturer, sweets have to a great extent replaced the customary greeting card as a typical Valentine's Day gift.

Hendricks has arranged a selection of unusual candy displays for Friday's observance and already many patrons of his shoppe on South Lincoln ave. patrons from the entire district, have taken advantage of the novelties.

Candies are arranged in special boxes in shapes of hearts and other novel arrangements and are available at all times at Hendricks.

A card does as a mere greeting, but to make the day complete, a box of Hendricks' special candies should accompany the literary message.

Furrier Remodels Out-of-Style Furs

General furcraft service of a high type is offered by Nick Kleon, veteran Salem furrier. Kleon can be reached by calling phone 1175 or seeing him at his home, in the rear of the Memorial building, Water ave.

Kleon is one of Salem's leading furcraft experts and each year caters to many Salem residents in rejuvenation of old furs or remodeling of a skin for special use.

Furs, he declares, are not out of style after being worn one season. They can easily be made into new or fashions and should never be discarded.

Too many of our new senators seem to be turning up in Washington with a past instead of a future.

Proper Method Of Firing Furnaces Shown by Concern

"No smoke, soot, gas or dirt." This is the guarantee given patrons of the Salem Builders Supply company who use Republic domestic coal in heaters at home.

Republic domestic coke is for use in all types of heaters—hot air furnaces, hot water furnaces, steam heating plants, base burners, arcolas and many others—bulletins sent to patrons announced today.

Five simple rules for burning domestic coke are given to Salem residents as follows:

Keep a deep bed of fuel. Coke has more volume per given weight than coal. The fuel bed must therefore be thicker. Fifteen inches will give good results; make it deeper if possible.

Use little draft after fire is started and keep it under control. Clinkering is the result of air check being kept open too long.

Do not stir fuel bed. Clean fire once daily.

Use suitable size of coke. Domestic coke is furnished in nut and egg sizes. Consult your dealer for the best suited.

Do not allow ashes to accumulate. Warped grates are caused by ashes accumulating till they reach the grates.

French "Butler" To Clean Up Marseilles

MARSEILLES, Feb. 12.—As Brigadier-General Remy D. Butler was once ordered to cleanup Philadelphia so Pierre Cals, aged 36, has been sent to Marseilles to rout law-breaking elements.

If Cals succeeds his methods will be a triumph for the new school of law enforcement over the old. He is a graduate of the institute of criminology at the University of Paris with a record of numerous brilliant achievements in his secret police service.

The badmen of Marseilles are called the "nervis." Their latest sensation was the mid-day kidnapping of a bill-collector on the Cannebiere, this city's "Broadway."

Champs Elysees Proves Death Trap

PARIS, Feb. 12.—Paris' celebrated avenue des Champs Elysees, named in honor of the last resting-place of the glorious dead of the ancients, seems to be particularly well-baptized considering the number of Parisians who have lost their lives or seriously injured themselves along this stretch of highway during the past year.

An average of ten persons daily are killed or injured walking or riding from the Place de la Concorde to the Arch of Triumph, a distance of about two miles. The cause is speeding for the chauffeurs have before them a particularly fine stretch of roadway with only one or two stop lights.

Old Burial Place Found in Germany

KOENIGSBERG, Feb. 12.—An extensive burial place dating from the days of the migrations of the peoples (5th and 6th century A. D.) has been discovered not far from the Viking burial place discovered some months ago.

Great burial urns have been found, together with lances, knives and other weapons. The women's graves contain amber and glass beads, and also bronze and iron brooches, ornamented with silver. Provisions for the journey to the other world were placed in the graves in small dishes and bottles—a custom also followed by the American Indians.

Children Like This Safe Prescription

Coughs and Sore Throat Relieved Almost Instantly

Stop children's coughs and sore throats before these ailments lead to dangerous illa. Thoxine, a doctor's prescription, now assures relief within 15 minutes to children as well as adults without the danger in the use of patent medicines containing harmful drugs.

Thoxine goes down on a different principle, goes direct to the source of trouble and relieves the irritation which causes the coughing and sore throat. Ideal for children because it is safe and does not have the usual "nasty-medicine" taste. No gagging. Just ask for Thoxine, put up ready for use in 35c, 60c, and \$1.00 bottles. Money back if not relieved. Sold by The J. H. Lease Drug Co., Flodrig's drug store and Bolger & French's and all other good drug stores. Adv.

Charles H. Dunlap, residing in Blainville, Indiana County, Pennsylvania, will take notice that on the 15th day of August, A. D. 1929, George W. Allen filed his petition in the Common Pleas Court of Columbiana County, Ohio, in case No. 284, against the above named parties and others, praying for an order declaring null and void the transfer of a certain tract of real estate in Salem City described in the petition filed in said case, and known as a part of Lot No. 492 Appraiser's Addition to Salem, Ohio, for the reason that same was transferred to said defendants by defendant, Leslie C. Dunlap and Olive A. Dunlap, with the fraudulent intention to defraud their creditors and that said property be administered for the benefit of the creditors of said Leslie C. Dunlap and Olive A. Dunlap, and for such further and additional relief as plaintiff may be found entitled to, and justice and equity require.
Said parties are required to answer on or before the 22nd day of March, 1930.
E. L. COBURN,
Attorney for Plaintiff
